EXPERIENCE //

WEB DEVELOPER // FEBRUARY 2014 – AUGUST 2017
HEDGEHOG DEVELOPMENT LLC. – HOLBROOK, NEW YORK
Full stack web developer in a full-service interactive agency dedicated to designing and building websites including e-commerce and content management systems.

- Collaborate with clients and project managers to create specifications and estimates for site functionality that meets client needs
- Develop said functionality, writing code that is maintainable, extensible, and modular for future development
- Use version control systems such as GIT and SVN during development for deployment, easy roll backs, and update tracking
- Maintain and update existing sites which may have been developed internally or by other parties
- Administer Linux web servers' Apache, PHP, and MySQL configuration to meet client site requirements

SYSTEMS ENGINEER // JULY 2013 – FEBRUARY 2014
THE PROACTIVE TECHNOLOGY GROUP – WESTBURY, NEW YORK

- Member of a team of professionals with responsibilities including the administration, maintenance, and support of local area networks, managing file systems, troubleshooting hardware, creating and maintaining documentation on operational procedures, to name a few.
- Provide computer help desk support via telephone communications with end-users.
- Perform diagnostics and troubleshooting of system issues, documented help desk tickets/resolutions.
